

## **FLEXPOST MOUNTING SIGN-BRACKETS**

Flexpost has created a new accessory for the Flexpost signpost systems ... Mounting SIGN-BRACKETS...

Prior to these innovative aluminum sign mounting brackets, customers were forced to drill through the round posts to mount their signs.... NOT ANYMORE!

For a nominal charge, we can supply an alternative to drilling. They can be installed in minutes and can handle back-to-back signs on one signpost with no special tools required (Alan wrench provided).

**Dealer Price Now Only \$13.99 Per Set**
