

Become a FLEXPOST® Authorized Dealer

Shortening the distance between dealers and consumers is our goal. When dealers participate in our Authorized Dealer program reaching that goal is facilitated and the lines of communication are open for business. Being an Authorized Dealer has its privileges!

Benefits

First and foremost is the success of your business. By joining our team and becoming an Authorized Dealer you will receive:

- Deepest possible pricing discounts
- Listing on the local dealer page of www.flexpost.net
- Receive direct leads in your geographic area
- Be the first to know about new products

In addition to receiving exclusive benefits, you also gain exposure. Getting on our Authorized Dealer list provides consumers in your area access to your business via our website. Thousands of potential customers visit our site daily. As we facilitate the consumer's search for a supplier, we increase your potential for a sale. Therefore, shortening the distance between dealers and consumers.

Marketing

We do all the work!

All you have to do is sign-up! We'll take it from there.

FLEXPOST supports its dealers in the traditional forms such as advertising and press release distribution as well as in the form of point-of-purchase displays and multimedia support (digital application files and access to our image database Hi-res .tif and web quality .jpg).

Responsibility

As mentioned above, as an Authorized Dealer of **FLEXPOST** products, being listed on our retailer referral is our way of guiding consumers to your door.

However, being ready to provide customers with service when they get there is "all you!" Dealers are responsible for actually "making the sale."

Be Prepared

All **FLEXPOST** dealers should have a catalog. If you have internet service available at your counter, make www.flexpost.net a favorite on your browser and use our site to show your customers photos or application lists. Use our site to verify applications as it is possible that our website is more current than our printed catalog. If you still have questions due to varying information, call our toll free number for assistance.

Ask your **FLEXPOST** Sales Representative about our current Product Display promotions. Our Displays act as silent sales people and are the best way for walk in customers to experience the "touch and feel" factor of the decision making process.

Online Support

In addition to being listed on our Retailer Referral listing, **FLEXPOST** offers online store support by hosting a "How To Order" link available to consumers interested in ordering product online. This program is referred to as our "Dealer-Link" referral program. If you have an online store, sign-up for this service today! Terms and conditions may apply.
